The **2nd International Conference on Green Energy & Technology (ICGET)** welcomes you to submit your research findings and experiences related to green/renewable energy and green technologies. The ICGET will have Invited Speakers from academia and industry, technical sessions and panel discussion – through which, the ICGET will explore and discuss various issues that are related to the theme of the ICGET. The motto of the ICGET is to share and discuss cutting-edge issues on green energy and technologies, as well as, to share ideas on how we can move from the experiences of advanced parts of the World towards the developing regions, and work together for a better World. The **1st ICGET** (Co-sponsored by *IEEE Fukuoka Section, Japan*) was held in the *University of Kitakyushu, Japan* during Aug. 23-25, 2013. Inform others and be part of it!

TOPICS OF INTEREST (not limited to)

- ✦ Green/Renewable Energy, Solar Energy, Wind Energy, etc.
- ✦ Green Chemistry, Green Technologies, Energy-saving Technologies
- ✦ Green Growth – Policy, Laws, Pilot Projects, etc.
- ✦ Social, Political & Economic Aspects on Green Growth
- ✦ Green/Clean Technologies in Industry & Business Sectors
- ✦ Green ICT, Energy-efficient Computing, Networking & Data Centers
- ✦ Sustainable Bio-energy
- ✦ Green Energy & Participations of Women
- ✦ Green Growth for Technologically-unreached People
