

International Conference on Informatics, Electronics & Vision

<http://ICIEV.org>

Review Statuses:

There are mainly 4 statuses of review decision:

1. **Reject** [for the cases related to plagiarism/related/dual-submission, upon clarifications, a paper may be accepted later; otherwise, a Reject status will not be overturned. So please do not request]. While submission, you agreed that you read <http://iciev.org/plagiarism.pdf>

2. **Awaiting Decision** [not yet decided – still under-review or in communication with authors due to some issues].

3. **IPS (Interactive Poster Session):-** The status is **Accept with Revision [major/minor]**. Session Chair will manage each IPS, where authors will present their paper in front of the Session Chair and later allow audiences to share/ask on ideas. Authors will print poster of their own cost and ICIEV will provide poster stand and pins. One may show some demonstrations during this time, upon permission from the Committee. You can also bring your laptop to demonstrate your work. Details will be provided later in the website – size of the poster, etc. Three **Best IPS Award** papers will be selected by the Session Chairs based on the quality of work and presentation. Note that IPS papers are judged based on logistic plans, session management, sometimes on the importance of a paper where more interactive discussions may be necessary, or where demonstration may be required, etc. ICIEV will increase more IPS sessions in future so that authors and attendees – both can get enough time to interact, ask questions easily from basics, learn from experts on a work to improve which are usually not possible in Oral sessions due to short time for Oral presentations as well as, shyness to ask basic questions or advice. So, ICIEV feels that IPS sessions are more worthy for researchers and attendees. However, due to logistics and facilities, we are unable to keep ALL accepted papers in IPS now.

4. **Accept with minor revision:-** These papers are selected for Oral presentations [last year oral presentation time was 12 min including QA session]. Detailed program and time will be announced later. One may decide to switch from Oral to IPS, and vice versa [if slots can be managed]. Authors will have to submit the PPT slides ahead through the CMT once we inform you do to this. Three **Best Paper Award & Best Presentation Award** will be announced in the Award Ceremony of the conference along with **Best IPS Award**.

NOW, unless a paper is updated as per the review comments reasonably - the ICIEV may reject an accepted paper [either oral or IPS] after your final manuscript submission. So, we request you to consider the comments of reviewers. Each paper **MUST** have separate registration by one author at least. Looking forward to meet you in the conference! For any query, please visit the website and links carefully. The final program with time will be announced 2 weeks before the conference.

Best regards

ICIEV
